INNOVATIONS

GC 150

The GC 150 polyethylene series vacuums are rugged and powerful polyethylene wet/ dry units available in multiple configurations to fit your application.

The series feature a rugged tank that won't dent or ruse as well as a stable, no-tip design that utilizes 6 casters and a tank shape that distributes debris towards the bottom. The GC 150 is quiet with only 59 dBa and has convenient debris management with optional paper filter bags.
