THE CLEANEST CATALOGUE EVER.
Imagine an India that’s at par with the best this world has to offer showcase cities, benchmark infrastructure and the best of maintenance standards.

Since 1996, we’ve been relentlessly pursuing our goal to make India a more hygienic, attractive and cleaner India.

It’s the India as we envision it.

It’s IPC’s India.

And we are proud to be a part of it.

Integrated Professional Cleaning
Professional Vacuum Cleaners DRY

**LEO MAXI**
- **Features**
  - Silent
  - Powerful
  - Multipurpose
  - Easily used on steps
  - Easily stored
  - Cartridge filter
  - High performance

**TOP (BACK PACK)**
- **Features**
  - Backpack vacuum cleaner with blower function (optional: blowing kit)

**Model – Back Vac**
- **Features**
  - Professional back vac
  - Smart design
  - High efficiency vacuum motor double layer dust bag filter for vac motor protection external pre-filter

**Aspiro 120 Plast**
- **Features**
  - Professional performance
  - Ergonomic and comfortable
  - Easily stored
  - Easily used on steps

**FOX**
- **Features**
  - Light Duty
  - Professional performance
  - Ergonomic and comfortable
  - Specially designed
  - Easy push cleaning facility

Integrated Professional Cleaning
Professional Vacuum Cleaners WET & DRY

### ASPIRO PLAST

**Features**
- Suitable for wet and dry vacuuming
- Easy to clean
- Suitable for all uses
- Trolley for small surfaces
- Motors with double insulation
- Head with anti foam system
- Robust polypropylene tank
- Head with cable hook

### ASPIRO STEEL

**Features**
- Suitable for wet and dry vacuuming
- Suitable for all users
- Trolley for small surfaces
- Head with anti foam system
- Head with anti foam system
- Trolley with tilted system for big quantity of waste (ASPIRO 730-740)
- Head with cable hook

#### Features

**AMSTERDAM PLAST**
- Suitable for wet and dry vacuuming
- With single-stage motor
- Shockproof polypropylene tank, resistant to wear and easy to clean
- Trolley for small surfaces
- Head with anti foam system
- Suitable for all uses

**AMSTERDAM STEEL**
- Suitable for wet and dry vacuuming
- With single-stage motor
- Suitable for all uses
- Trolley for small surfaces
- Head with anti foam system
- Robust steel tank
Upholstery/Carpet Vacuum Cleaners

**LAVA**

Features
- Professional extractor for small and medium cleaning operations
- Solution injection and extraction
- Recyclable shockproof polypropylene plastic
- High performance
- Head with anti foam system
- Chemical Sprayer

**SUPER LAVA**

Features
- Extractors are multivalent equipments which, thanks to their injection-extraction system, help you to wash quickly every kind of surface: moquettes, carpets, arm-chairs, curtains, floor (marble, rubber, etc.), wall and car seats
- All these machines may be used even as normal wet and dry vacuum cleaners

Professional Carpet Cleaners

Upright Vacuum – Carpet care- HD 14

Features
- Ergonomic design.
- Two engines/high performance suction engine 463.
- Electronically protected belt brush drive Poly V.
- Multi-level filtering system: double-layer dust bag, engine protection double filter, external pre-filter engine, Filter Hepa H13 - 99.97%@0.3 micron.
- On board: extensible tube 4:1, nozzle.
- Electronic suction regulation on request.

Industrial Vacuum Cleaners

**PLANEt 50**

**Features**
- With three-stage three-phase turbine for continuous use
- Easy to manoeuvre in small spaces
- Long running time
- Robust steel tank
- Equipped with silencer

**PLANEt 152 ATEX**

**Features**
- Fitted with front single-phase single stage turbine
- Possibility to quick release dirt collection tank
- Turbine electrical supply with automatic relay for wrong phase sequence or phase loss control

**PLANEt OPTIM ATEX**

**Features**
- Equipped with induction motor
- Suitable for continuous operation
- Simple to use and handle
- Best solution for machines tools producing fine dusts
- Easy removable collection tank

**PLANEt 200**

**Features**
- Standing vacuum cleaner featuring 3 motors of either 2 or 3 stages, suitable for dry and non-continuous operation
- For wet and dry application, it is necessary to install the shut off floater and coveyor cone

Special Application Vacuum Cleaners

SKYVAC

Features
- Cleaning and inspecting gutters and roofs has never been so easy and safe. SkyVac models are available in three configurations: 6/9/12 meters according to the height you wish to reach.
- Internal model is suitable for indoor high reach cleaning, Commercial and Industrial models are also suitable for gutter cleaning and are equipped with waterproof monitor and camera allowing you to monitor cleaning from ground level.

3FLOW PLAST

Features
- Specific for fine dust
- Continuous operations
- No loss of suction power
- 3 X Polyester cartridge filters (1 micron)
- 1000 Working hours life

ECOSPITAL ISO5

Features
- Warning light for speed control > 20m/s
- Four filtration levels: paper bag, Sani filter, HEPA filter upstream and downstream from the motor
- Filtering level for collecting the dust from the motor carbon brushes

PLANET 22 S ATEX

Features
- Speed control with LED & IP6 protection of electric parts
- Individually tested before shipment to ensure requirements
- Designed to recover combustible and high dangerous dust

WHITE R

Features
- Low Noise
- Antinoise Rubber Wheels
- Stainless Steel Tank AISI 304
- Four Stages High Filtration 0,3 Micron
- White Room

Mopping Scooty

TIGER 250 G II

**Features**
- Painted steel body.
- Adjustable driver’s saddle.
- No.2 direct current electric motors.
- Transmission on the two rear wheels by toothed belts.
- Extractable battery container kit complete with connecting cables.
- Indicator of battery charge level.
- Handgrip control for starting and electronically controlled acceleration.
- ON / OFF key switch.
- Safety device “man-assisted only forward gear”.
- Reverse for selection or forward or reverse gear.
- General emergency switch.
- Horn and front headlight.
- Suitable for shopping malls, hospitals, airports and industries.

Single Disk Scrubbers

**SD 43/400**

**Features**
- Large capacity solution tank
- Low height motor design
- Quick transportation thanks to large wheels
- Solution distribution from brush center
- Powerful motor with reduction gear
- Well balanced thanks to off-set motor system
- Designed to assure minimum noise levels
- No tool handle for easy removal and storage
- Safe trigger system

Scrubber Driers WALK BEHIND

CT46
- Solution distribution from brush center.
- CWS (constant weight system).
- Exclusive squeegee system assures high performance at low cost.
- Great maneuverability.
- Ergonomic And Easy To Maintain
- Yellow Touch Point
- Integrated Chem Dose

Features
- Solution distribution from brush center.
- CWS (constant weight system).
- Exclusive squeegee system assures high performance at low cost.
- Great maneuverability thanks to an optimum weight distribution.
- Recovery tank discharge point and hose at maximum height.
- Brush replacement without tools squeegee blade can be used on 4 sides before replacement.
- AFS (Anti- Foam System).
- Battery level indicator.

CT30
- Brush replacement without tools squeegee blade can be used on 4 sides before replacement.
- AFS (Anti- Foam System).
- Battery level indicator.

CT70
- Solution distribution from brush center.
- CWS (constant weight system).
- Exclusive squeegee system assures high performance at low cost.

Scrubber Driers RIDER-ON

**CT 80**
- **Features**
  - Solution distribution from brush centre avoids solution wastes.
  - Self-leveling electronic system for an always perfect adherence between brush and floor.
  - Squeegee designed for the highest drying and productivity results
  - Easy to use thanks to intuitive commands.
  - Deactivation and re-start of working function simply with a command on pedal. It includes brush and suction delayed stop for irregular working stages
  - Brushes, blades and suction hoses replacement without tools

---

**CT 110**
- **Features**
  - Huge tank capacity in minimum external space
  - High quality and performance vacuum motor
  - Brush replacement without tools
  - Inlet and outlet filters for solution tank protection
  - Squeegee designed to absorb harsh impact
  - 3 solution distribution options: standard, automatic & economy

---

**CT 230**
- **Features**
  - Huge solution tank capacity in minimum external space
  - Extensive running time
  - High quality and performance vacuum motor
  - Great visibility whilst working
  - Easy access to internal compartment
  - Inlet and outlet filters for solution tank protection
  - Brush replacement without tools
  - Squeegee designed to absorb harsh impact
  - Great maneuverability thanks to an optimum weight distribution
  - Automatic squeegee lift in reverse

Sweepers WALK BEHIND

**510 M**

Features
- Main brush with neutral design to collect debris forward.
- Debris hopper of great capacity, easily removable for manual discharge operations.
- Handle adjustable at 2 halfway heights.
- Main brush & Side Broom pressure adjustment without tool.

**505**

**705**

**512 (Battery / Petrol)**

**712 (Battery / Petrol)**

**464**

Features
- Extensive filtering surface
- Pre-programmed working settings
- On board battery charger
- Dust filter and main brush replacement without tools
- Easy to transport
- Adjustable handler
- Rubber impact absorbing bumpers
- Heavy duty chassis fully coated steel
- "Medium" main and side brush

## Features

- Main brush with special “V” shape, allows maximum performances of debris collection
- Huge hopper capacity
- Large sweeping path
- SLS (Self Levelling System) automatic main brush pressure control
- Filter shaker with automatic option. Intervals can be programmed through electronic board
- Protected and waterproof controls

**Features**

- Large sweeping path
- Extensive filtering surface
- SLS (Self Levelling System) with automatic main brush pressure control
- Pleated micro- polyester filter
- Effective filter shaking system
- Hydraulic power steering
- Hydraulic dumping
- Closed hydraulic circuits on both traction and sweeping system
- Special enlarged easy to clean radiator
- Extra-strong components for outdoor use

---

Integrated Professional Cleaning
High Pressure Washers COLD WATER

PW - C10

Features

• Immediate total stop (the machine goes off automatically when the trigger gun is released).
• Axial pump with aluminum alloy head.
• Stainless steel pistons with excellent mechanical characteristics.
• Universal motor (Ultra – Light copper windings for easy movement).

PW - C23

Features

• Features Photo
• Immediate total stop (the machines goes off automatically when trigger gun is released)
• Axial pump with aluminum alloy head
• Stainless steel pistons with excellent mechanical characteristics

PW - C25

Features

• Asynchronous motor, 2-pole (2800rpm), class S1 (continuous Duty).
• Professional pressure gauge to monitor work pressure at all times.
• Strong structure that is resistant to thermal shocks, atmospheric agents and chemical corrosion.
• Lance support as standard.

PW - C40

Features

• Asynchronous motor 2-pole, class S1 (continuous duty) in models 1310 P and 1813 P
• Asynchronous motor 4-pole, class S1 (continuous duty) in models 1310 P4, 1813 P4 & 1915 P4
• Sturdy frame and large diameter wheels to facilitate movement

IPC MLC Wall Mounted Unit

Features

• Asynchronous motor 4-pole, class S1 (continuous duty) in models 1915 P4
• Sturdy frame and large diameter wheels to facilitate movement

## PW - C70

![PW - C70](image)

### Features
- Asynchronous motor, continuous duty, 1400 rpm. Guarantees the mechanical components a long and maintenance free working life. Protected with thermal cutout.
- Sturdy painted steel frame with stainless steel protection.

## PW - C80

![PW - C80](image)

### Features
- Asynchronous motor, continuous duty, 1400 rpm. Guarantees the mechanical components a long and maintenance free working life. Protected with thermal cutout.
- Sturdy painted steel frame with stainless steel protection.

## ABSOLUTE

![ABSOLUTE](image)

### Features
- Remote control "safety-stop" (ST) shuts the machine down after 3’ of inactivity or definitively in the event of leaks in the water circuit and / or no water.
- The pump and motor are easy to disconnect for all the machines.

## BENZ

![BENZ](image)

### Features
- 280 Mm diameter wheels.
- Thermostatic valve.
- H.P crankshaft pump with brass head and ceramic pistons.
- Grab bar and tubular steel bumper with rests for the lance or gun.
### High Pressure Washers HOT & COLD WATER

**Features**

- Low pressure detergent delivery controlled from lance
- Pressure adjustment and steam knob accessible from outside, allowing pressure to be adapted to various cleaning situations
- Crankshaft pump with brass head and ceramic pistons
- Pressure gauge to monitor work pressure at all times
- Lance holder and H.P hose support

**Features**

- Electric motor: asynchronous, 2-pole (2800 rpm). High efficiency continuous duty with thermal cutout
- Pressure adjustment and steam knob, allowing pressure to be adapted to various cleaning situations
- Water softener device with flow rate adjustable according to water hardness
- Crankshaft pump with brass head and ceramic pistons
- Eight liter detergent tank and 12 liter fuel tank. large diameter filler

**Features**

- Electric motor, 4-pole, 1400 rpm, continuous duty with double bearing and thermal cutout. Extends the working life of mechanical components
- Pressure adjustment and steam knob incorporated in the pump
- Crankshaft pump with brass head and ceramic pistons
- Control panel with; motor and burner start-up temperature regulation, detergent tap, professional gauge to display working pressure at all times

Suction action

- It can work as vacuum and steam cleaner with suction injector machine

Cleaning action

- Great penetration ability
- It reaches deeply any area to clean

Degreasing action

- It melts the dirt very quickly
- It makes easy to remove the hardest dirt like grease and oil

Sanitizing and disinfecting action

- The thermal shock creates by the steam reduces drastically the microbic charge
- The system fights also the pathogenic microorganisms (infections)
- No need of special products like chemicals

Decontaminating action

- It eliminates the contaminating effects of biological and chemical substances
- Necessary above all to remove residuals and not only

Suction system also independent from steam use

It eliminates the contaminating effects of biological and chemical substances

No need of special products like chemicals

- The thermal shock creates by the steam reduces drastically the microbic charge
- It makes easy to remove the hardest dirt like grease and oil

It melts the dirt very quickly

It reaches deeply any area to clean

Great penetration ability

Features

- To exploit the full potential of steam, IPC has developed a series of multi purpose machines which produce and deliver steam, deliver detergent, remove dissolved dirt and dry without suction.

Top quality products with 18/10 stainless steel high capacity boilers

They can be used in complete safety, thanks to the technical features and security devices adopted.

The range can be used in all sectors. For example, it is suitable for cleaning in the home, in the health sector, institutions, hotels, transport, the mechanical sector, agriculture, etc.

IPC – Integrated professional cleaning – which is headquartered in Italy is one of the world’s leading manufacturers of cleaning machines & equipment.

Globally the group consists of a suite of companies, products, business units and services, fully geared to provide global solutions to the needs of the professional cleaning sector. The size and international dimension of the group make it one of the world’s leading producers of professional cleaning machines and equipment, with a vast range of prestigious products and brands, for the various user profiles.

The business units specialize in specific segments of the market, where they are present with dedicated production units, sales networks and a constant commitment to technological research and product innovation, involving collaboration with valuable strategic partners. The near complete range of product line starting from manual tools to high end sweepers covering all categories such as scrubbers, scrubber driers, high pressure washers etc... Makes it a complete solution provider for the cleaning sector.

IPC India

Over the years, the India business has been fully aligned with the global organization and has grown to a reasonable size & reach. Today IPC India has its foot print in all major commercial & Industrial cities of the country.

IPC India relentlessly strives to provide our valued patrons a delightful experience with our world class products, by our reliable & sustainable service support network and through our motivated & proficient people. We have also opened a training academy at our Head office to impart training on general cleaning, on Cleaning Mechanization & to extend specific training on our range of machines to our sales & service staff & to the house keepers & machine operators of our valued patrons.
Diverse requirements - Versatile solutions.
