## VACUUM SWEEPERS - WALK-BEHIND

# SMARTVAC™ 464

The SmartVac vacuum sweeper is a walk-behind sweeper that has many innovations that give it its "Smart" name, as well as making it the number one selling sweeper on the market. It is extremely productive and can clean carpeted floors 5x faster than a backpack vacuum and 10x faster than an upright. It can be used to clean hard floors as well, with an automatic brush adjustment for moving from hard floors to carpeted surfaces. It requires very minimal maintenance and even has the ability to clean its own filter. The SmartVac has two models - the 464 and 664 with the 464 being the smaller model.
