WINDOW CLEANING TOOLS

INTEGRATED PROFESSIONAL CLEANING

COMPOSITION

IPC's Pulex line uses TQR, Total Quality Rubber, which prevents the blade from becoming deformed when it comes into contact with abrasive dirt, aggressive washing solutions, or is exposed to atmospheric agents or friction on window frames. IPC's Pulex is the only rubber blade on the market made up of Total Quality Rubber.

INNOVATION

IPC rubber blades are guaranteed to have the perfect combination of the type and nature of the rubber, the quality of the mix and the cutting edge of the blade.

VULCANIZED RUBBER

IPC's rubber is a real vulcanized natural rubber (VNR) which is compression molded, item by item, and must have consistent and homogeneous chemical and organic features. IPC processes the raw material to obtain a mix with no impurities.

IPC EXPERIENCE

IPC has 30 ears experience in micro filtration and 30 years experience in special additive mixing, making IPC an industry leader in rubber window cleaning products.

EXTENSIVE LINE

IPC offers a full line of window cleaning tools, including squeegees, t-bars, window washer sleeves, scrapers, blades, telescopic poles, indoor ultra pure water cleaning system, holsters, buckets, floor squeegees and more.

THE RUBBER IS KEY

The rubber blade is the main component of every squeegee because it is the element that comes into direct contact with the glass and dirt. In the vast majority of squeegees on the market, the blade becomes deformed when it comes into contact with dirt, which is abrasive, or washing solutions, which are aggressive, or is exposed to atmospheric agents or is subjected to friction on window frames and under the eaves. This is precisely why TQR, Total Quality Rubber, came about, which makes IPC Pulex's the only rubber blade used in a total quality squeegee.

The ideal way of picking up, positioning and removing items without the need for ladders. The reacher acts as an extension to the arm and is indispensable in a variety of situations – for cleaning public areas and gardens, washing urinals and toilets, picking up industrial products and waste, arranging things on shelves and for domestic use.

DESCRIPTION	CODE	DIMENSIONS
STICKER ROD	ATRA70021	43 in

The Sticker Rod by IPC Pulex is designed for picking up rubbish and waste and is indispensable for environmental cleaning. It avoids manual contact with everything picked up. The Sticker Rod comes in a version with a fixed point and one in which the point retracts when the tube is pushed into the handle.

RUB OFF

PULEX DISPLAY

Rub Off is a strong, powdered cleanser that removes hard-water stains and stubborn mineral deposits from a variety of surfaces. Rub Off was originally developed to remove the hard-water stains left behind on windows by outdoor water-sprinkling systems, but it has many more applications. It will also remove all sorts of stains including soap scum,

WINDOW AND ALL SURFACE CLEANING SYSTEM

ENVIRONMENTALLY-FRIENDLY

The Cleano utilizes IPC Eagle's pure water cleaning system, which allows for a chemical-free cleaning. When not using chemicals, no residue is left behind, eliminating any streaks and marks.

LABOR REDUCTION

The Cleano can be used safely from the ground and has the ability to clean up to 50'. With no longer needing to reposition and climb up a ladder, labor is reduced by 50%.

FLEXIBLE

The Cleano allows the operator to change out frames using a joiny connection system, which makes it easier to clean different surfaces.

VERSATILE

The Cleano can be used in many applications. Some include: indoor glass, windows and walls, furniture, tables and desks, work benches, doors, showcases, mirrors, elevators, glass refrigerators and indoor window sills.

ERGONOMIC

The Cleano was specifically designed to be extremely comfortable. With its easy-grip handle and lightweight construction, it is easy to use for everyone.

The poles have an end comprised of a standard or screw cone in which you can mount any tools - squeegees, washers, cobweb brushes or scrapers.

EASY TO USE

The poles have an internal solution hose and flip locks for fast extension. They are the strongest and lightest poles on the market, which makes it easy to walk up walls for a quick clean.
