GP 127

The GP 127 is a professional wet and dry vacuum cleaner with a small 4.5 gallon design with a quiet operation of only 64 dBA. It has excellent HEPA filtration with four stages of filtration that include dual HEPA filters (one filters the dust generated by the carbon in the vacuum motor). The vacuum has an innovative design with two large stationary wheels that tracks the user cleaning and features convenient debris management with optional paper collection bags. The GP 127 also allows for use of a remote powered vacuum head with the AC receptacle conveniently located on the front of the vacuum head.
